Things are different in High School

Septa (C.H.I.L.D) knows that parents (and children) have many questions and concerns about this upcoming transition.

These transition presentations and Q&A sessions will be led by Special Education staff from North High School AND South High School to help ease this process and empower you and your children to successfully enter and navigate High School with confidence!

Special Education staff will discuss:

- High School Special Education programs & services
- Who develops the IEP for this transition and how the IEP will be implemented?
- Challenges specific to High School
- Who are the key Special Education contacts in High School?
- High School diplomas and commencement credentials

Remember.....Involved parents ensure the best results for our children!
